

Series 928 Connectors

Available in Black, Yellow, Red, Blue,
Light Green, Orange and Grey.

RADGRIP™ COUPLING RINGS

For better grip, improved durability

Glenair Series 928 plugs with RadGrip™ rubber coupling rings feature wide, easy-to-grip castellations as well as a raised thumb tab. Built for maximum durability and mechanical protection, RadGrip™ is the perfect solution for advanced protection against shock and other forms of mechanical damage. In addition, RadGrip™ facilitates rapid mating and demating of connectors. The highly durable rubber compound may be specified in seven different colors for improved connector and cable identification.

HEAVY DUTY COUPLING RINGS

Extended length aluminum ring with oversized flutes for easy mating and damage resistance

Glenair Series 928 plugs with heavy-duty aluminum coupling ring are electrocoated with scratch-resistant black polymer. These rings feature a lengthened profile with enlarged flutes for easy mates and de-mates.

UL LISTED, RoHS COMPLIANT

Series 928 connectors are part of Glenair's ITS power product family

VG approved Series ITS quarter-turn bayonet connectors are available in hundreds of arrangements and dozens of styles. Used worldwide for urban rail systems, construction equipment, and military equipment, the ITS connector is recognized as a "go to" solution wherever there is a need for rugged power interconnects. Glenair's ITS connectors are recognized under the Component Recognition Program of UL, file number E328968.
